

Dear Local Grocer,

As a regular customer, I wanted to ask if you would look into the opportunity of carrying Freanna products, a whole milk Frisian Yoghurt, plain, honey and agave flavor as well as their whole milk with cream on top, sold in glass bottles. Both the yoghurt and milk are non-homogenized making it much easier to digest and maintain the wonderful flavor of whole milk.

It would be so convenient to be able to purchase Freanna right here in our local grocery store during our weekly shopping visits along with our other refrigerated groceries.

If you haven't heard about Freanna yet just check out their website below! It is the first yoghurt and milk that's non-homogenized and has such a pure flavor. We are so excited to be able to enjoy Freanna's healthy products daily!

We are requesting and truly hope you can start to carry Freanna for our family, and all the other pure yoghurt and milk lovers who shop here for their weekly groceries.

I know the makers of Freanna would welcome the opportunity to tell you all about their new non-homogenized whole milk products and how beneficial it is for our health and digestive system.

We look forward to buying Freanna right here at our favorite grocer for our family and friends soon!

Thank you,

Your future Freanna customer

Your Freanna sales rep is Darwin. Please contact him at 575-693-2298.

....and visit Freanna's website for all the healthy details!
